Iqra Rasheed

Software Engineer | Front End Developer

A highly motivated Front End Developer with experience in building responsive and user-friendly web applications. Passionate about creating seamless user experiences, improving performance, and delivering perfect designs. Seeking to contribute my skills and expertise in React and modern front-end technologies to a dynamic team, where I can continue to grow as a developer while delivering high-quality web applications.

EDUCATION

Bachelor of Science in Software Engineering
Government College University,Faisalabad
10/2020 - 07/2024

PROJECTS

Form Builder-FYP
Project Achievements

Achievements

- Developed a custom form creation tool with drag-and-drop functionality, real-time preview, and form sharing via unique URLs. Includes user authentication, field customization, and form statistics.
- **Technologies :** Next.js, TypeScript, Prisma, Vercel PostgreSQL
- **Live Demo :** Form Builder App

Contact Management App
Project Achievements

Achievements

- A React-based app for managing contacts with full CRUD functionality. Users can add, update, delete, and search contacts stored in Firebase Firestore. Features form validation with Formik and Yup, and real-time feedback with react-toastify. Deployed on Vercel.
- **Technologies** : React, Vite, Firebase, Tailwind CSS
- **Live Demo** : Contact Management App

Pokemon Website
Project Achievements

Achievements

- A React-based Pokémon app that allows users to search and view detailed Pokémon information. Features a search filter and responsive layout. Built with Vite and React, fetching data from the PokeAPI. Deployed on Vercel.
- **Technologies** : React, Vite, CSS, PokeAPI
- Live Demo : Pokémon Website

E-commerce Website
Project Achievements

Achievements

- A fully responsive e-commerce website where users can browse products, manage their cart, and view an order summary. Features include product listings, detailed product views, quantity management, and toast notifications for cart actions. Built with HTML, CSS, JavaScript, and Vite. Deployed on Vercel.
- **Technologies** : HTML, CSS, Bootstrap, JavaScript, Vite
- **Live Demo** : E-Commerce Website
